

~ EARLY CHILDHOOD COURSE ~

Introduction

The Early Childhood course provides a comprehensive preparation for adults who wish to work with children ages 2 ½ through 6 years of age in multi-age groupings, using Montessori materials.

Children at this age level are ready to expand their horizons beyond the home. They are refining large and fine motor coordination, as well as practical and social skills, and they are developing concentration, a sense of order, reasoning and awareness. They benefit from interactions with other children and adults in a specially prepared environment that provides them with freedom to explore a wide variety of interesting materials.

Summer Academic Phase (8 weeks)

This full-time program includes lectures, demonstrations, discussions, workshops and practice sessions. Students prepare detailed manuals of lesson plans in each curriculum area, practice giving lessons using specific learning materials, and design and make their own materials for classroom use. I

Instructors are supportive and bring a diversity of styles and expertise to their classes. This is an intensive and highly rewarding experience.

Practicum Year Seminars

During the student teaching practicum phase, students participate in four weekend seminars. Seminars include classes and performance assessments and are also welcomed as a reunion by both students and instructors.

Course Components:

- Montessori Philosophy
- Observation
- Child Development
- Practical Life
- Sensorial
- Language
- Mathematics
- Music & Movement
- Art
- Geography / History
- Biology / Physical Science
- Classroom Leadership/Management
- Student Teaching Practicum

Student Teaching Practicum (9 months)

The student teaching practicum is a key component of the student's preparation to be a teacher. Generally, the student is paid a stipend as an assistant to the classroom teacher.

Occasionally, the student may be responsible for the class and undertake a self-directed student teaching practicum. A self-directed practicum is not recommended and must be approved by the MECR Director.

The student teaching practicum site (school) must be approved by MECR. A waiver is required if the school is not affiliated with the American Montessori Society.

A MECR field consultant maintains regular contact with the student teacher, including three on-site visits to observe the student working in the classroom. At least five visits are required for self-directed practicum students and there is an additional fee.

MECR provides assistance in finding a practicum position. Final arrangements are the responsibility of the student and the participating school.
